From India To Arabia: PrashantAdvait Foundation Takes The Message Of Climate Awareness To The Middle East

The second session organized by PrashantAdvait Foundation addressed Dubai's dynamic expatriate community. It inspired the audience to recognize the global impact of their everyday choices, reminding them of the huge role each individual plays in taking care of our planet.

PrashantAdvait Foundation recently organised talks of Acharya Prashant in Dubai. The talks beautifully blended spiritual insights with the urgent message of climate awareness, touching many hearts across the city.

A Trilogy Of Insightful Dialogues Across Dubai

PrashantAdvait Foundation organised several talks in Dubai to create new ideas on how we could reorganize our lives in light of environmental and social challenges today. Speaking at Dubai Heights Academy, Acharya Prashant spoke about how our understanding of progress must be entirely revamped – progress should be measured in terms of the growth of a human being within, his relationships, and awareness of the self rather than just by material wealth. He then went deeper in bringing all of us to understand our responsibilities concerning that of Mother Earth.

The second session organized by PrashantAdvait Foundation addressed Dubai's dynamic expatriate community. It inspired the audience to recognize the global impact of their everyday choices, reminding them of the huge role each individual plays in taking care of our planet.

The last talk was organized by PrashantAdvait Foundation at BITS Pilani, Dubai Campus. It was a talk that resonated well with both students as well as faculty, as the talk brought them through the intersection of evolution in humans, technology, and climate change. Acharya Prashant advised young minds to take urgent measures concerning the environment since real education comprises responsibility towards oneself and the world.

A Heart-to-Heart with Khalid Al Ameri

A beautiful and riveting talk of Acharya Prashant with Khalid Al Ameri was organized by PrashantAdvait Foundation. It offered deep wisdom about fostering genuine bonds between people without societal pressures and external validations. It also highlighted the extreme importance of self-awareness and living an authentic life, coupled with the immediate need for environmental awareness.

Spreading Climate Awareness Globally

The PrashantAdvait Foundation celebrates that Acharya Prashant's Dubai engagements were fruitful in prompting significant reflections and personal growth among attendees. The talks helped many become more aware of their inner lives and the environment around them. Already, whilst continuing its global journey to provoke greater awareness regarding environmental issues, PrashantAdvait Foundation commits itself to sustaining both personal awakening and environmental responsibility.
