SSC exam irregularities reflect deeper cultural crisis: Acharya Prashant

NEW DELHI: (Aug 6) Philosopher and author Acharya Prashant has expressed concerns about irregularities in the recent SSC exams, calling them “a symptom of cultural decay”.

The SSC (Staff Selection Commission) exam, held from July 24 to August 1, faced multiple issues such as sudden cancellations, server outages, unresponsive systems and exam centres located up to 500 km away from candidates’ homes.

"Such lapses are no longer isolated mishaps. They reflect a decaying culture that is weakening the youth’s inner fabric. These failures repeat every year: SSC, NEET, Railways, state services. This is no longer the exception. It has become the system," the founder of the PrashantAdvait Foundation said in a press release.
